COLOR TEST PAGE

How To Use This ?

Print this file before using it.

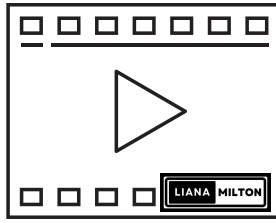

Choose a title for your comic book.

What will your story be about? What kind of adventure will your characters go on? Get creative and have fun with your title!

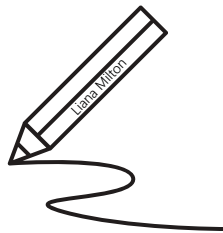

Choose your characters.

Who are your main characters? What do they look like and how do they act? Give them unique names and personalities so readers can know them better.

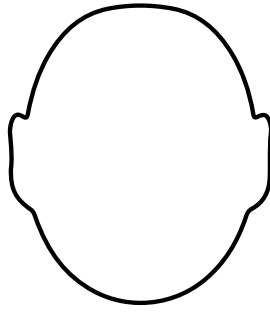

Choose your scenes.

What will happen in your story? What kind of challenges will your characters face? How will they overcome them? Break your story down into a series of scenes and then draw each scene on a separate page.

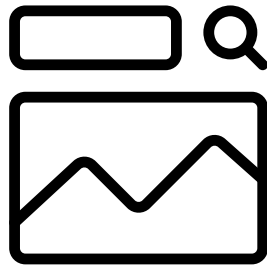

Draw your comic book!

Use your imagination and creativity to bring your story to life. Use different types of pencils, pens, markers, and colors to make your comic book look great.

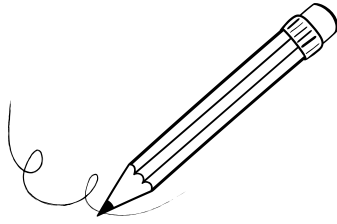

Start with simple shapes.

Don't worry about making your characters look perfect at first. Just start with basic shapes, like circles, squares, and triangles. Once you have the basic shapes down, you can start adding details.

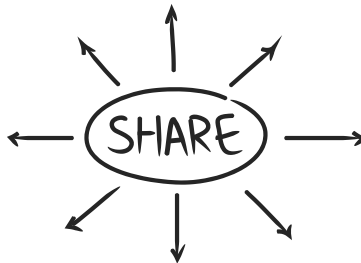

Use reference photos.

If you're not sure how to draw something, use a reference photo to help you. You can find reference photos online or in books.

Practice, practice, practice!

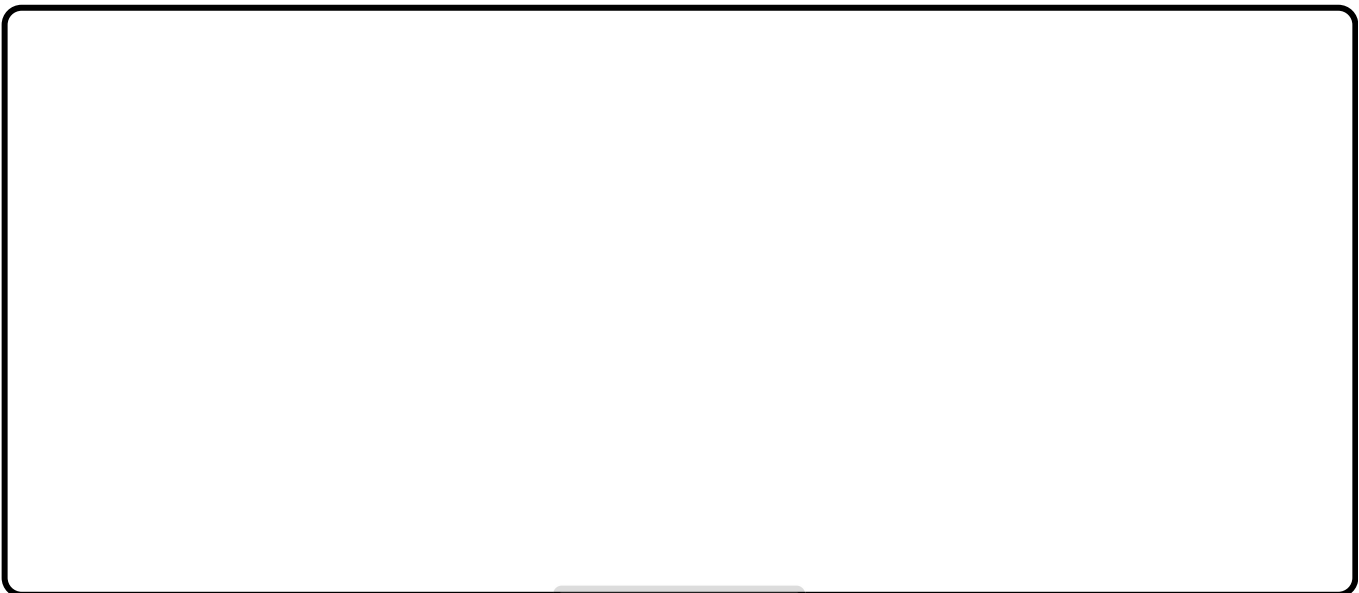

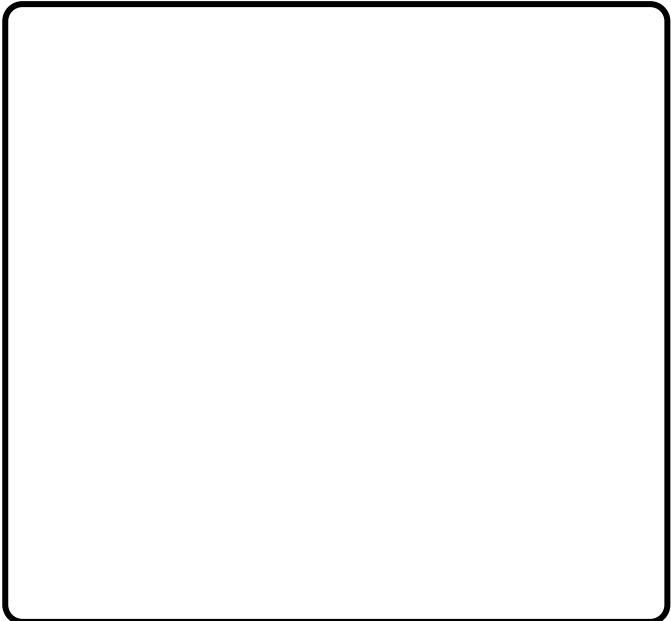

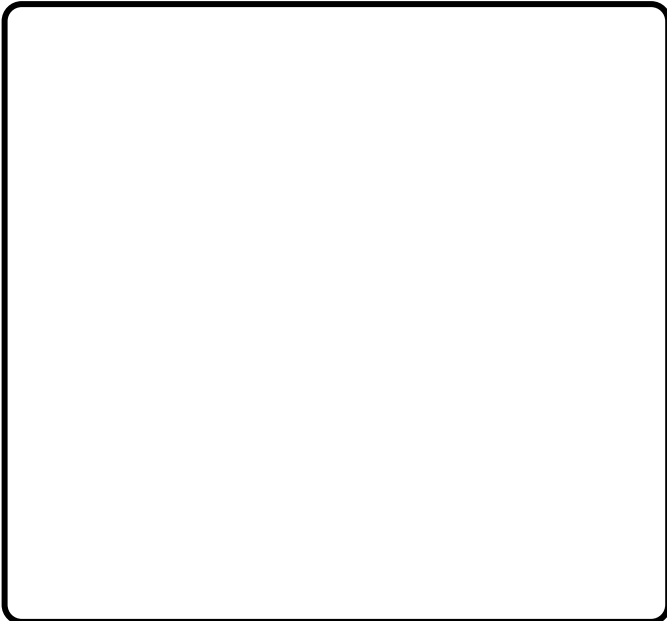

The more you draw, the better you'll get. So don't be afraid to experiment and have fun!

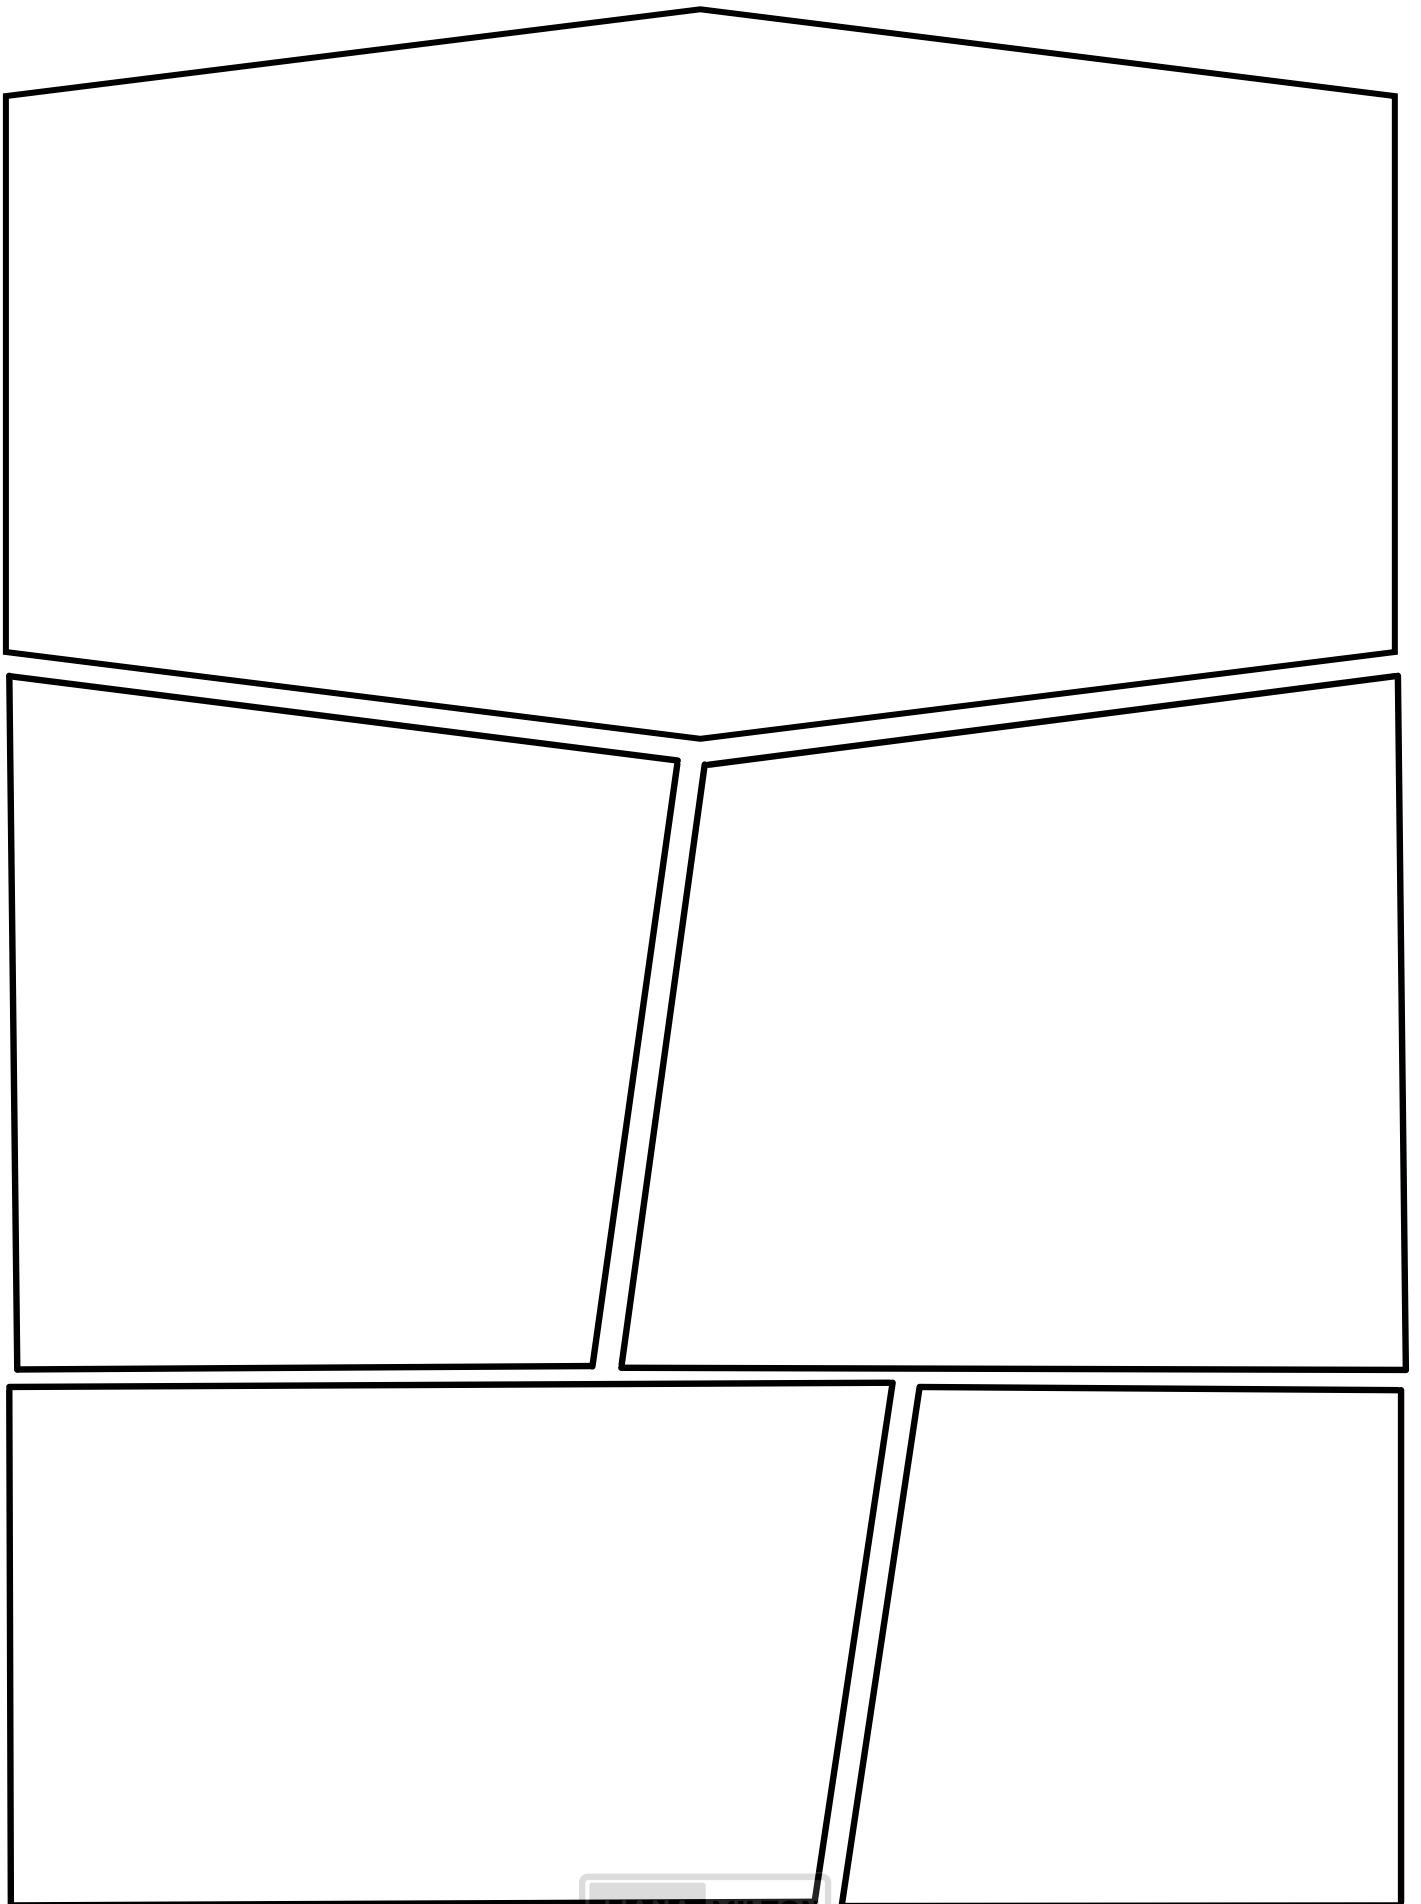

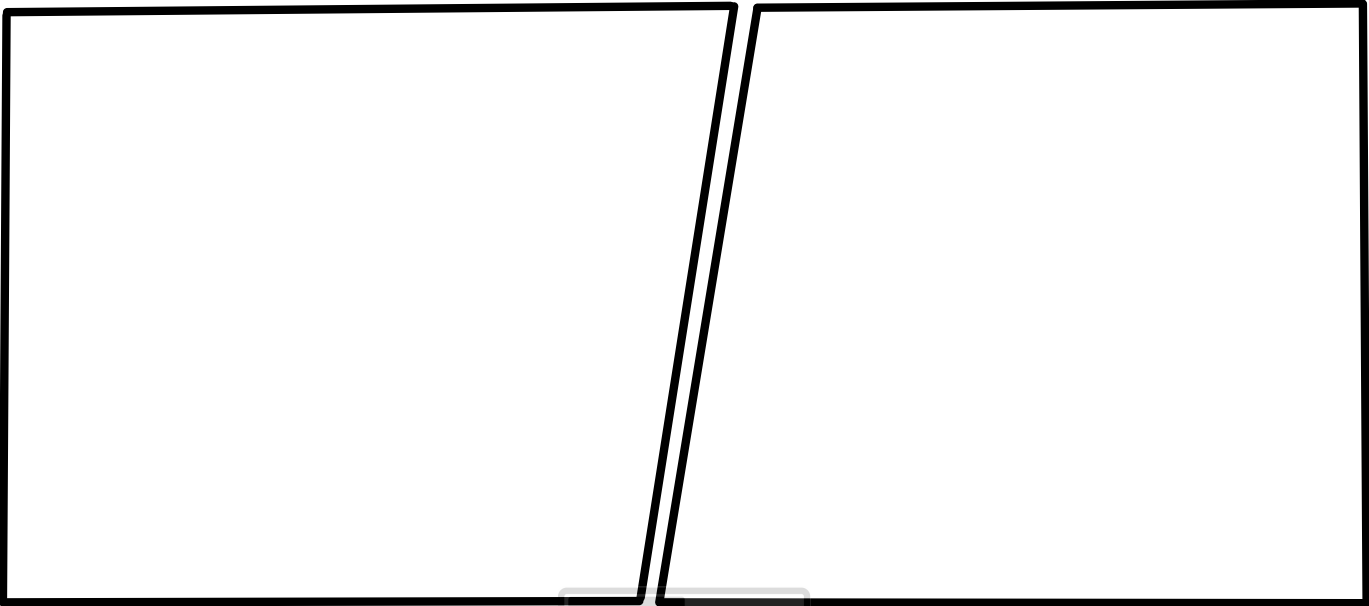

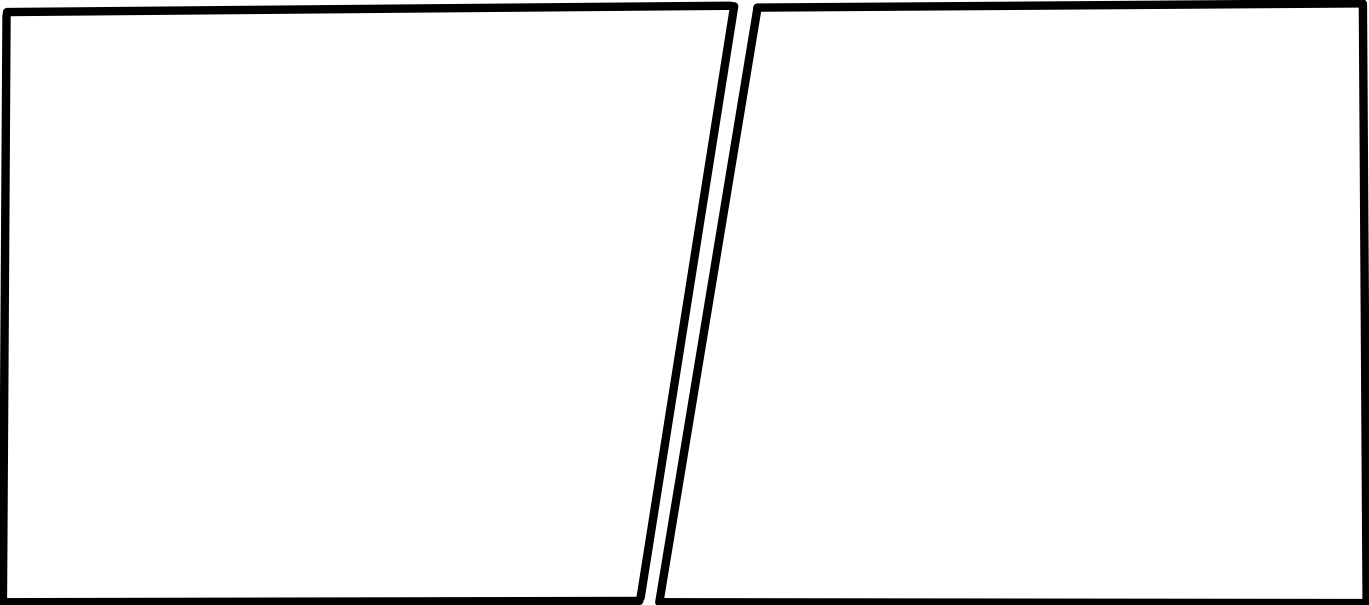

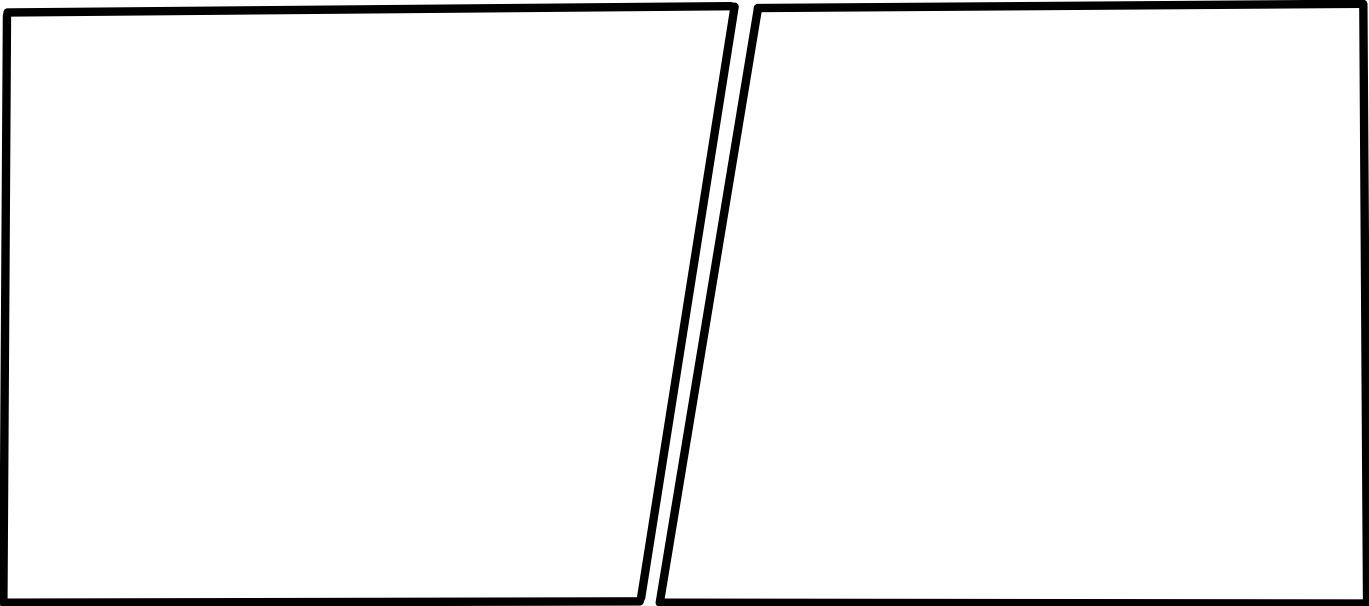

Share your comic book with the world!

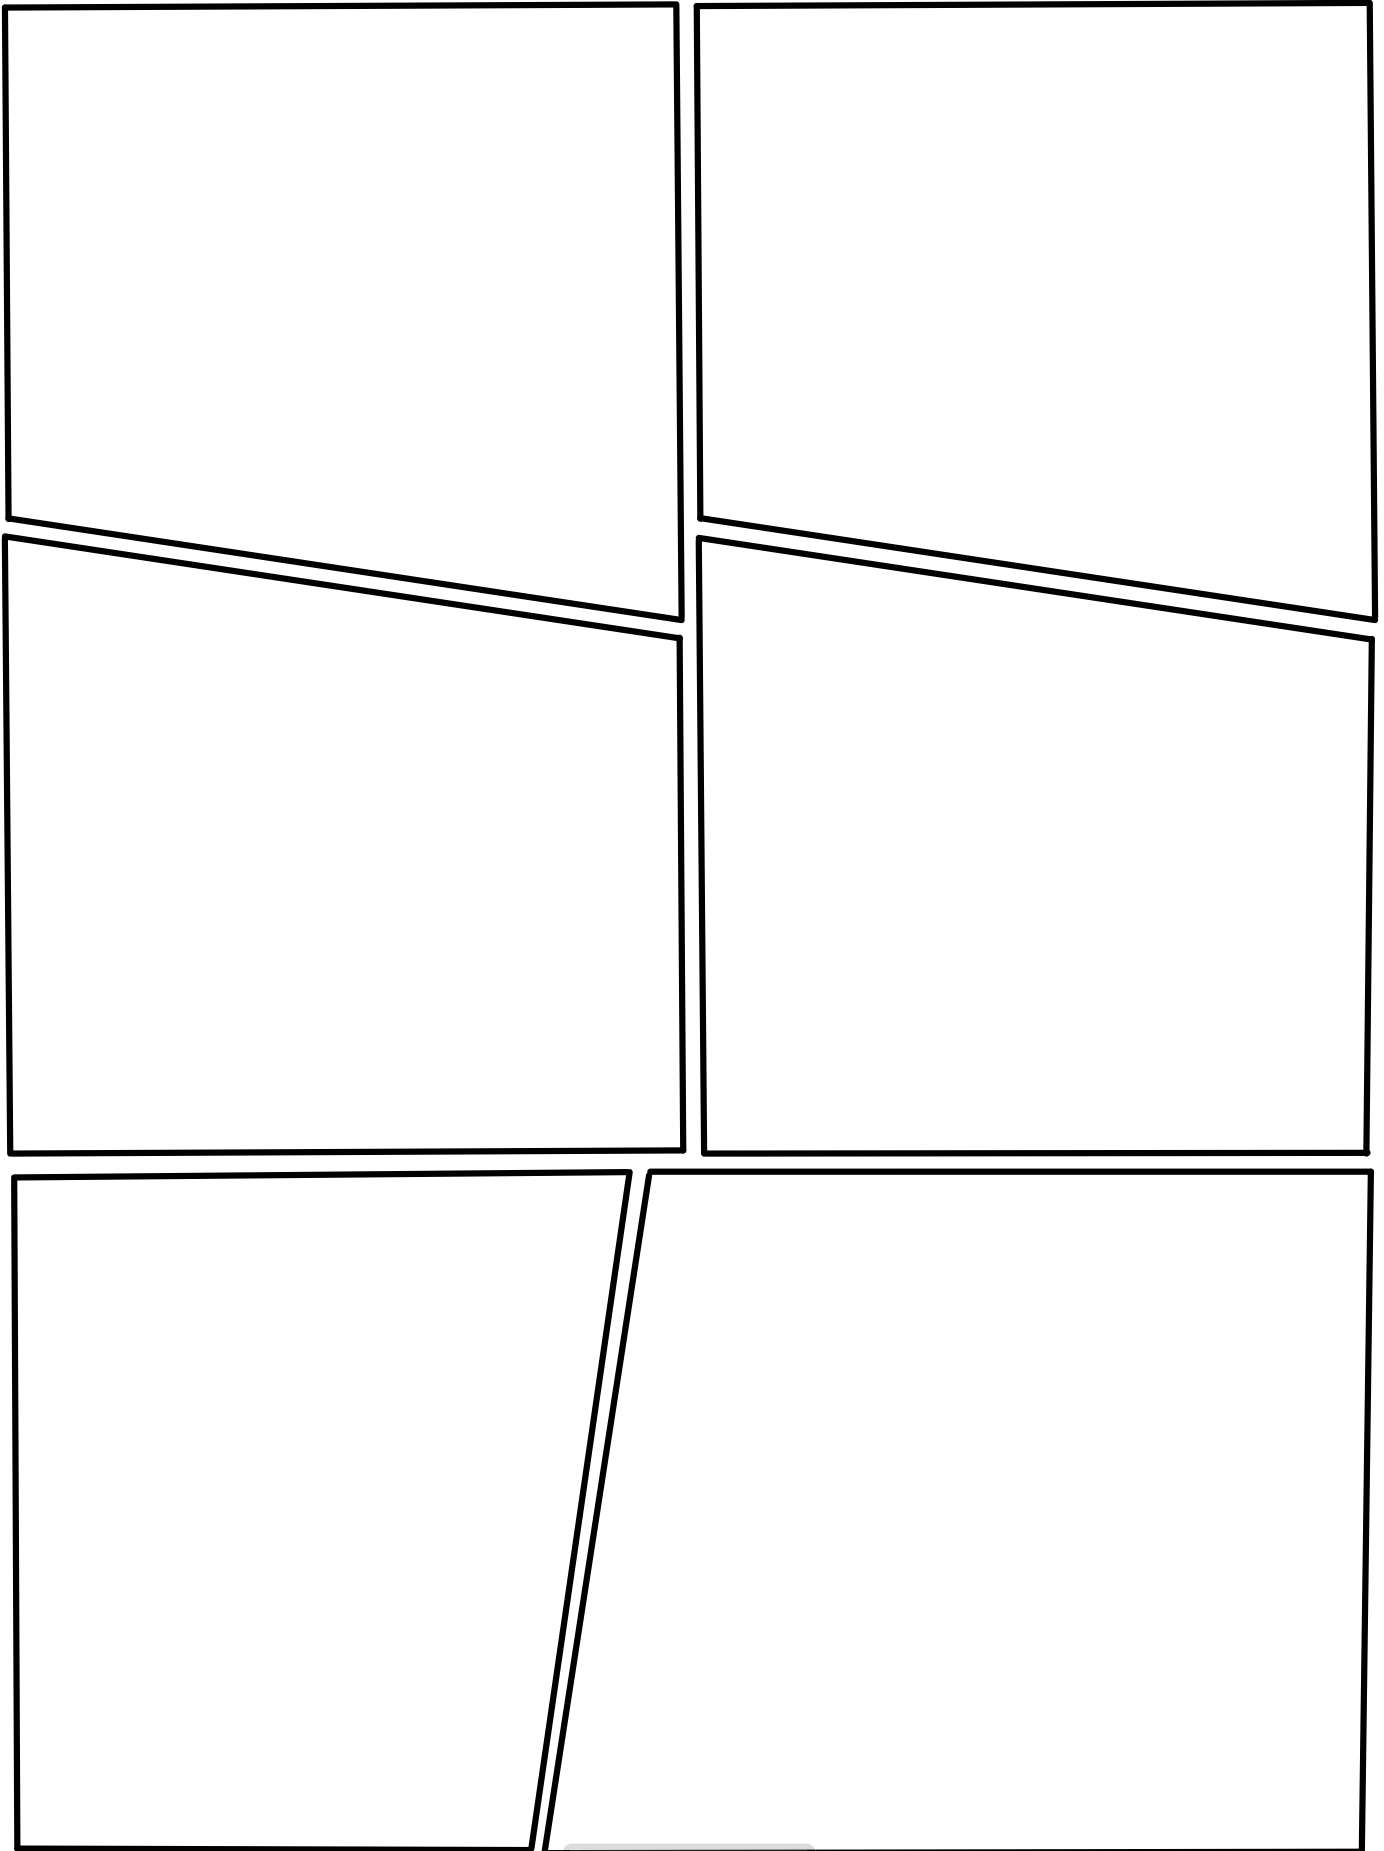

Once you're finished drawing your comic book, share it with your friends, family, and teachers.

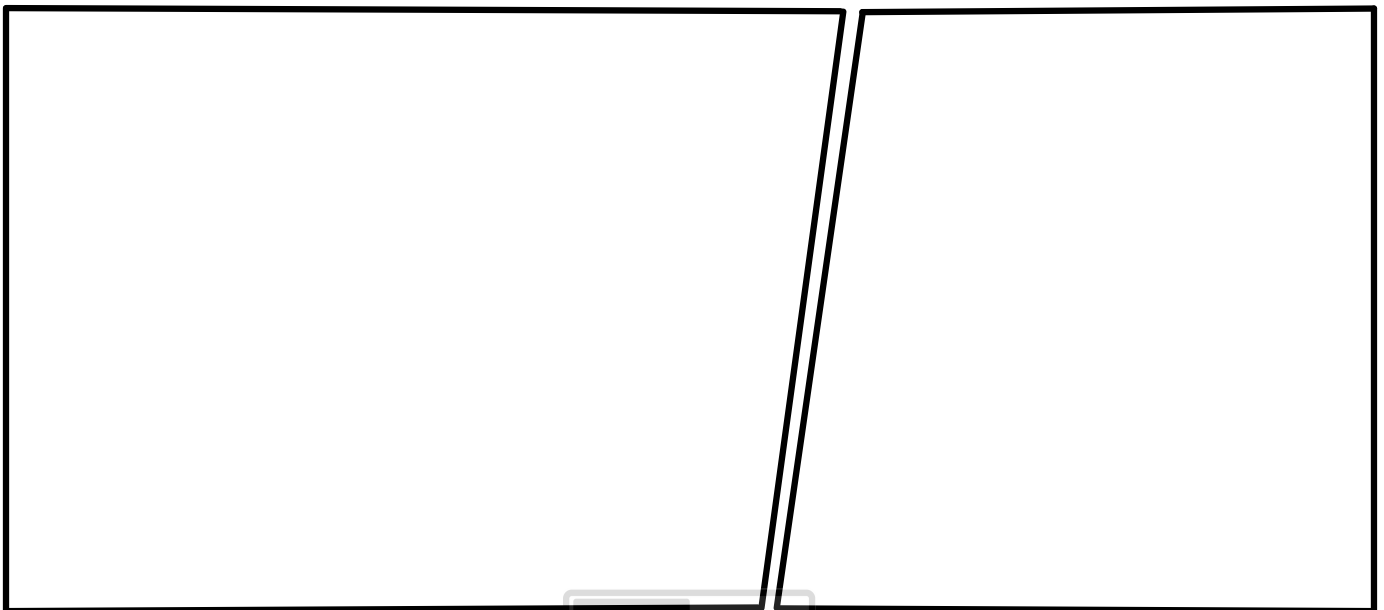

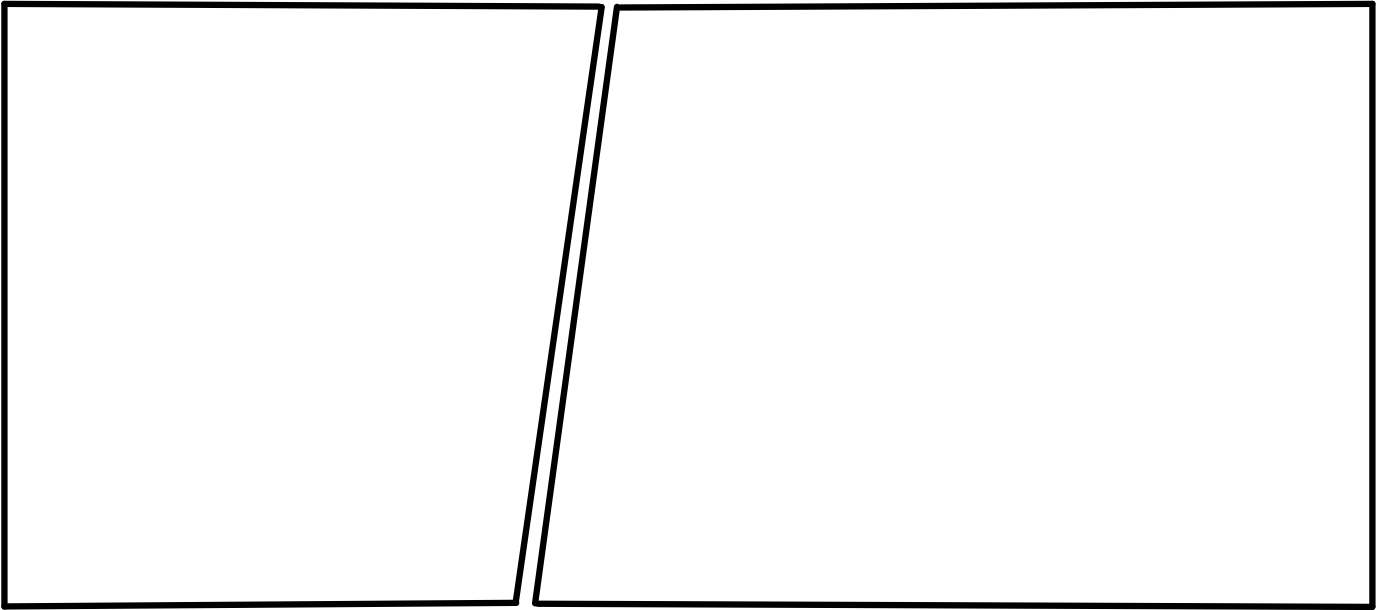

You can also post it online or enter it into a comic book contest.
